PROFESSIONAL SUMMARY

Frontend Developer with 1.5+ years of experience in React.js, Next.js, and TypeScript, building scalable, high-performance web applications for AI-driven SaaS products. Built 40+ reusable UI components powering two live platforms; contributed to a ~70% reduction in manual document-review time on a fraud-detection platform processing hundreds of invoices monthly. Skilled in Redux Toolkit, Context API, RESTful API integration, responsive design, and modern JavaScript (ES6+), with strong focus on clean, modular, component-driven architecture.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Frameworks: React.js, Next.js, Redux Toolkit, Context API

Styling: TailwindCSS, Responsive Web Design, CSS3

API & Integration: RESTful APIs, API Integration, Postman, Asynchronous JavaScript

Tools & Version Control: Git, GitHub, VS Code, Agile/Scrum

Architecture & Practices: Component-Based Architecture, Custom Hooks, Clean Code, Modular Design, Performance Optimization, Cross-Browser Compatibility, Web Application Development, UI/UX Implementation, Frontend Development, Software Development Life Cycle (SDLC)

EXPERIENCE

Frontend Developer

Sep 2025 – Present

Ibotix Technologies

Onsite

- Built and shipped 40+ reusable React.js components across two production web applications, improving UI consistency and reducing frontend development time
- Engineered a configuration screen for vendor invoice setup on a document-verification platform, reducing manual review time by ~70% (from ~2 hours to ~35 minutes per batch)
- Implemented Redux Toolkit and Context API for global state management, eliminating prop-drilling and improving application scalability and maintainability
- Integrated RESTful APIs and handled asynchronous data using custom React hooks, including a POST-to-polling completion flow with shimmer-skeleton loading states
- Collaborated with backend and UI/UX design teams in an Agile development environment to deliver production-ready features on a bi-weekly sprint cadence

ReactJS Intern

Mar 2025 – Sep 2025

Ibotix Technologies

Onsite

- Developed and maintained responsive UI components using React.js and modern JavaScript, establishing reusable design patterns adopted across multiple projects
- Assisted in RESTful API integration and frontend feature development for AI-driven web applications
- Improved code quality and component reusability by following clean architecture and frontend best practices

PROJECTS

The Doc Forensics | *React.js, JavaScript, REST API, Context API*

2025-2026

- Built an AI-powered document-processing web application processing hundreds of vendor invoices monthly for a legal-policy organization
- Designed a configuration workflow triggered on incomplete invoice data, integrated with an Output Hub to resolve data-mapping errors
- Built file-upload and result-visualization dashboards, managing application state via Context API
- Integrated OCR-extraction APIs

Ibotix Hire | *React.js, Redux Toolkit, REST API*

2025

- Built an AI-based hiring automation web platform with LLM-driven resume parsing and ATS scoring, processing tens of resumes per recruiting campaign
- Built a campaigns feature end-to-end: wired real API calls via a custom `useApi` hook with a POST-to-polling completion flow
- Managed global state with Redux Toolkit and shipped inline-editing UX for team-member and campaign-management views

- Built and maintained the company’s official marketing website using Next.js and TailwindCSS, focusing on performance optimization and responsive, cross-device UI
- Implemented S3-based image integration for case-study and content pages, improving asset loading and page-load performance
- Developed case-study listing and detail pages with dynamic content rendering and SEO-friendly, semantic page structure
- Optimized component rendering and page-load speed using Next.js best practices (image optimization, code splitting, modular component architecture)

EDUCATION

Sagar Institute of Science, Technology & Engineering
B.Tech in Computer Science & Engineering; CGPA: 8.20/10.0

Bhopal, Madhya Pradesh
2021 – 2025

CERTIFICATIONS

JavaScript (Infosys Springboard) | SQL (CodeChef)
